

FOOD GUIDE SAFETY FOR PUPS

Dangerous food and toxic

corn cobs
raisins
currants
grapes
garlic
onion
mushrooms
aluminum foil
plastic wrap

Go easy on the turkey no extra fats/skin bones or uncooked meat. Some herbs are toxic while others can have way too much sodium for our pups. Nutmeg, sage, butter ect. should be avoided.

Don't share your desserts! Sugars can lead to upset stomachs and even cause major health problems.

Even the bestest of pups can be tempted by all the Thanksgiving meal smells. Be sure to keep an eye on your pup throughout the festivities.

Don't forget to take out the trash. Curious pups may knock trashcans over.
